

Request for Proposal: Vendor to Develop a Digital Backbone System

11 July 2018

The APO Secretariat, based in Tokyo, Japan, is calling for proposals for vendors to develop a new digital backbone system.

Description

The APO's mission is to provide programs that improve productivity and competitiveness in the industry, agriculture, service, and public sectors of its 20 member countries. This project aims to develop a digital backbone system capable of reducing operating costs through paperless operations, strengthening cooperation with national productivity organizations in member countries, and transforming human resources and skills to meet the needs of the new era.

The digital backbone will include three systems: 1) financial accounting system; 2) project management system; and 3) document management system. The APO will cooperate with the selected vendor to design, develop, and deploy this digital backbone with the aim of system operation from the end of 2018 to the first half of 2019.

To Apply:

Detailed specifications with the Request for Proposal (RFP) will be provided after signing a nondisclosure agreement. Please contact the APO Secretariat via e-mail at the address shown below.

Deadline:

By 17:00 (JST) on 30 July 2018

Proposals must reach the address given in the RFP no later than this deadline.
