PROJECT IMPLEMENTATION PLAN

26 March 2018

1. **Project Code**  18-RP-01-GE-RES-C-02
2. **Project Activity**  APO Business Model Transformation Project
3. **Project Reference**  Project Notification 18-RP-01-GE-RES-C dated 13 March 2018
4. **Duration**  27 February–1 May 2018
5. **Venue**  Tokyo, Japan
6. **Implementing Organization**  APO Secretariat
7. **Number of Experts**  Two (2) international experts from Accenture Consulting: Dan Baker (USA) and Abishek Raj (India) (CVs of whom are enclosed)

8. **Background**

The Roadmap to Achieve the APO Vision 2020 was formally approved by the APO Governing Body in 2016. This roadmap is a medium-term strategic framework to guide the planning and implementation of APO programs and projects to help the organization achieve its vision of being the leading international organization on productivity enhancement, enabling APO member economies to be more productive and competitive by 2020.

Under the leadership of Secretary-General Dr. Santhi Kanoktanaporn, the APO Secretariat has been developing innovative initiatives that create greater impact, steer member economies to become more competitive, and help them improve productivity. Some of the new initiatives include:

1) Establishing an APO Futures Team to develop future-ready smart initiatives in collaboration with external experts and deploying AI-enabled online tools such as Shaping Tomorrow and Futurism.com to support strategic intelligence scanning of the contextual (social, technological, economic, environmental, and political, or STEEP) environment;
2) Launching the APO Digital Business platform to support corporate planning and project management;
3) Setting up the eAPO MOOC platform to broaden educational and training outreach;
4) Devoting resources to provide policy advisory and consultancy services to member governments (e.g., developing productivity master plans); and
5) Developing an accreditation body to certify individuals/institutions equipped with productivity specialist, futurist, strategic foresight and other productivity skill sets.

To succeed, these initiatives need to be enhanced and prioritized over some current programs that may have become obsolete. Initiatives may be also required for change management to empower APO people and facilitate meaningful, sustained organizational change to reinforce new roles.

1-24-1 Hongo, Bunkyo-ku, Tokyo 113-0033, Japan  Tel: (81-3)3830-0411 Fax: (81-3)5840-5322  www.apo-tokyo.org
In December 2017, the Secretary-General decided to search for a consulting firm/consultant to conduct a strategic review of APO operations including benchmarking against other international organizations and developing a new business model and related plans for project management strategy and change management strategy.

Among four major consulting firms known for their experience in the public sector, Accenture was appointed as the APO partner, based on an analysis paper prepared by the Secretary-General and subsequent discussions, taking into account the methodology used by Accenture and public-sector experience, including its history of working with international organizations.

9. Objective

Engage Accenture to review the current approach to achieving the goals of the Roadmap to Achieve the APO Vision 2020 and recommend a new business model to improve and maximize the impact of organizational programs and projects.

10. Scope and Methodology

The Business Model Transformation Project will be conducted using the following methodologies:

1) Identifying key issues in the existing model using in-depth analysis of current workflow and project materials;
2) Conducting both internal and external stakeholder interviews to build consensus on identified issues, for which Accenture interviewed not only APO Secretariat staff but also a number of NPO representatives from member countries;
3) Identifying and benchmarking against other similar organizations based on mission, secretariat size, business scale, cost structure, etc.;
4) Identifying key takeaways for the APO;
5) Consolidating key findings from the research and interviews to propose a new business model and recommendations to transform the APO based on that new model; and
6) Pilot testing to assess the usefulness of the new business model in achieving the APO Vision 2020.

11. Financial Arrangements

To be borne by the APO Secretariat
1) All costs for the Business Model Transformation Project undertaken by Accenture Consultling amounting to JPY9,996,000; and
2) All local implementation costs, including hot-desking Abishek Raj in the APO Secretariat over the period of the consultancy project.

Santhi Kanoktananporn
Secretary-General
Dan Baker
Principal Director – Growth Markets
Accenture Development Partnerships
WASHINGTON, DC

BACKGROUND

Dan Baker is the Growth Markets Lead for Accenture Development Partnerships, a business unit focused on bringing Accenture’s strategy and technology expertise to address global development challenges, working with the world’s leading companies, multi-lateral and bilateral donors, international NGOs and private foundations. Dan has over 19 years’ experience at Accenture delivering projects including business strategy, change management, and technology - with a focus on digital development and cross-sector partnerships. Dan has client project experience in over 20 countries and has previously lived in SE Asia and the UK.

For the past 6 years Dan has served on the ADP leadership team and prior to his current role led the growth of the NGO Client Group and Americas Group.

Dan holds an MBA from the Darden School of Business where he earned the Faculty Award for Academic Excellence, a BA in Economics Cum Laude from Wake Forest, and a certificate in Disruptive Strategy from Harvard Business School.

PUBLICATIONS & THOUGHT LEADERSHIP

1. **IFC** – “Driving Towards Equality” study on opportunities for women as drivers and riders using digital ride-hailing platforms based on research in 6 countries. (To be published)
2. **World Bank** – “Integration Approach Study” for national ID systems across 10 countries and co-launched public report as part of ID4D program addressing 1.5B people without official identification ([LINK](#))
4. **United Nations Office for the Coordination of Humanitarian Affairs** - Emergency Response Business Consultation ([LINK](#)) Op-Ed Article and Summit Moderator
Abhishek Raj
Consultant

Contact Details:
E-mail: abhishek.e.raj@accenture.com
Tel: +91-9920977064

Experience Summary:
- Abhishek has a total of 7 years of experience in evaluating competitive business advantages, financial performance and business valuation
- Analyzed sustainability of cost advantages, value chain positioning and capital allocation decisions
- Identified benefits of localization initiatives by global industrial manufacturers, analyzed their cost structure and future revenue growth potential
- Engaged large institutional investors and delivered investment pitches highlighting underlying strengths of different business models

Education:
- MBA from Indian School of Business, Hyderabad – Dean's List and Merit List
- Bachelor of Technology, IIT Kanpur
- CFA Institute, USA (completed level 1)

Functional Experience:
- Business case proposal
- Financial inclusion modeling
- Strategic partnership evaluation
- Profitability sustainability

Industry Experience:
- Development/NGOs
- Consumer Durables
- Infrastructure
- Automobile

Selected Experience
- ADP - Strategic Partnership Evaluation for an International Developmental Agency
  - Developed partnership evaluation framework for a global nonprofit to improve its engagement with >30 implementation partners
  - Collaborated with senior program managers to institutionalize the partnership evaluation process and feedback mechanism

- ADP - Business Model Re-Design & Expansion Strategy
  - Evaluated existing business model and did a complete current state assessment to identify pain points and gaps in offerings, technology and processes as inputs to a future state business model design and scaling recommendations
  - Designed and conducted stakeholder/partner interviews, reviewed financial performance, researched industry best practices, to gather data on current-state business model and cost structure - Identified strategic constraints and future opportunities
  - Developed a to-be state business model forecasted likely investment costs and improvements in scale, revenue, and operating costs - Developed a set of key recommendations for future program refinement and scaling

- ADP - Program Expansion Proposal for an International Developmental Agency
  - Developed proposal to scale up localized financial inclusion programs for women on global scale; prepared investment roadmap and modelled achievable economic & social transformations
  - Stakeholder analysis highlighting potential benefits to governments, private financial institutions and world's financially excluded communities
  - Reinforced client's submission to the United Nations for possible solution to accelerate economic empowerment

Growth Strategy for a Global Personal Care Brand
- Identified untapped growth & value creation opportunities highlighting existing competitive advantages; analyzed brand awareness/perception studies across existing customer groups
- Modelled lean working capital to sustain growth, analyzed cost allocations for R&D plans
