18 April 2018

1. **Project Code**
   18-RP-44-GE-DON-C-01

2. **Title**
   Strengthening the Programs of the Center of Excellence on Green Productivity (GP)

3. **Project Activity**
   Assignment of experts to assist the strengthening of GP capabilities in member countries

4. **Duration**
   April 2018 to March 2019

5. **Venue**
   Member countries

6. **Objectives**
   a) To provide technical expertise to support undertakings in member countries through the COE on GP in the areas of resource recycling, green energy, green factories, green buildings, agro-innovation, and other priority areas; and
   b) To identify member countries’ emerging needs in GP-related areas.

7. **Background**

   The APO has long endeavored to promote the adoption of GP as an approach to achieve economic prosperity along with sustainable development. In this regard, GP is a key strategy not only to achieve productivity increases but also to make positive contributions to environmental friendliness. In May 2013, the 55th APO Governing Body Meeting in Tokyo approved the establishment of the APO COE on GP in the ROC. Spearheaded by the CPC in conjunction with several government ministries, the center aimed to support the APO in promoting and implementing GP-related activities and publicize valuable examples of GP in the Asia-Pacific region.

   During 2013–2015, one of the major accomplishments of the COE on GP was to facilitate learning and sharing of best practices of the ROC in the four selected GP models of resource recycling, green energy, green factories, and agro-innovation, which led to adoption in other member countries. International experts on the four GP models at national level were assigned to share their knowledge through seminars and lectures and to provide consultancy services to industries and concerned agencies. Several requests from member countries for technical expertise services to enrich their knowledge, understanding, and application of relevant GP tools, techniques, and methods were received. In response to such demands, continuous efforts to extend the technical support and services in the GP thematic areas from the COE on GP to member countries in need will be revived in 2018.

8. **Scope**

   The GP thematic areas identified under the COE on GP to be covered under this project are:
   a. Resource recycling;

b. Green energy;
c. Green factories; and
d. Eco/agro-innovation.

However, requests by member countries on specific subjects of interest related to GP other than these areas may also be considered for review, taking into consideration the objectives and current priorities of the COE on GP.

9. Implementation Procedures

Applications for expert services by member countries
a. Member countries wishing to utilize the services of an overseas expert under COE on GP projects should submit requests for specific assistance to the NPO for endorsement to the APO Secretariat (using the application form in the Annex).
b. Priority will be given to member countries that have not previously requested expert services.
c. The background, objectives, and expected outcomes of the activity for which the services of an expert are requested and daily activities of the expert should be reflected in the application form.
d. The APO Secretariat will review the requests and forward them to the COE on GP if found acceptable.
e. To facilitate the search for and selection of suitable experts, the requesting NPO may suggest specific individuals; otherwise the Secretariat will rely upon recommendations of the COE on GP. Sufficient lead time should be provided to identify and assign an expert before implementation of the project.
f. The NPO/implementing organization receiving the expert services must submit an evaluation report on the implementation of the project within one month of completion of the expert(s) services. The assigned expert(s) who provide consultancy services should also submit a report within one month of the completion of his/her assignment.

10. Financial Arrangements

To be borne by the APO
a) All assignment costs of overseas experts; and
b) Costs relating to the dissemination of the results of COE activities, i.e., publications, tools, materials developed, etc. if any.

To be borne by experts or participating countries
All other local implementation costs including costs for meetings and local surface transportation during the assignment in the country.

Santhi Kanoktanaporn
Secretary-General
Asian Productivity Organization

APPLICATION FORM FOR COE EXPERT SERVICE ASSIGNMENT

Requesting country: ________________________________

Subject (project title): ________________________________

Please clearly state the background, objective, and expected outcomes when applying for the expert services.

1. General information

   Background:

   Objective:

   Expected outcomes:
2. Request for expert(s)

1) Number of expert(s): 

In principle, a request should be for one expert in a single application. If applying for more than one expert, please state the reasons.

Reasons for requesting more than one expert:

2) Language (acceptable): 

3) Interpreter available: Yes No

4) Candidate expert(s) for the APO and COE to approach, if any:
