1. Objectives

The primary objective of this training-of-trainers course is for participants to broaden their understanding and skills in promoting and leading organic agroindustry for improving the productivity and sustainability of agriculture in their countries. Other objectives are:

a. To acquaint participants with organic agriculture to enable widespread adoption of truly sustainable farming systems and markets;

b. To familiarize participants with recent and emerging developments in global organic agroindustry and provide opportunities for networking and sharing of best practices in the management of agribusiness issues; and

c. To contribute to achieving the Sustainable Development Goals (SDGs) of the UN 2030 Agenda for Sustainable Development, in particular, SDG 2 of ending hunger, achieving food security, improving nutrition, and promoting sustainable agriculture.

2. Background

Organic agriculture combines tradition, innovation, and science to benefit the shared environment and promote fair relationships and a good quality of life for all involved. Organic agriculture can significantly contribute to addressing global environmental and social changes and to achieving the UN SDGs. In order to take full advantage of its potential, organic agriculture needs grow, continuously improve its performance, inspire mainstream agriculture, and take the lead in agroindustry. Organic solutions, comprising packages of intelligent, innovative farming techniques, sustainable, fair food chains, and principles that strengthen small-scale farmers and empower rural economies, are being adopted globally by governments and local authorities, carried out by millions of farmers, and supported by a rapidly increasing number of consumers. However, the organic segment still accounts for only a small share of global agriculture and is often perceived as having low productivity and being too expensive.

Leadership and institution building are the key factors for greater sustainability in agriculture and development of the organic sector. Actors in the organic sector today share a vision of a fairer, healthier, more sustainable world but sometimes lack the required knowledge, skills, and attitude to contribute effectively to its development. The potential benefits of organic agriculture have not yet been realized. A main reason is that the capacities of leaders in the sector, which includes NGOs, research and certification bodies, and public organizational units, are not yet fully developed.

The organic market has been steadily expanding, however, due to increased consumer awareness, health concerns, and environmental issues. Organic agriculture and markets are well developed in Europe and North America, while Asian organic markets are growing fast and expected to catch up in the future. Alongside the organic movement, there are numerous worthwhile initiatives from farmers, organizations, and businesses to improve sustainability in agrifood systems. Thus, the advocacy and leadership elements of the organic movement need an appropriate strategic course to become more relevant and impactful in view of the challenges global agriculture faces.

3. Scope and Methodology

The course will consist of lectures, sharing of country experiences, group exercises, and field/company visits in conjunction with a day-long international conference.

The tentative program outline is given below:

### Presentation 3: Organic value chains
Group breakout session: Sharing of country experiences in the organic agroindustry

**Tues., 2 June**
- International Conference on Organic Agroindustry Development Leadership in Asia
- Presentation 4: Global organic agriculture movements including Asia
- Presentation 5: Organic farming and the SDGs
- Presentation 6: Overview of Mongolian organic agriculture and the way forward
- Presentation 7: Organic agriculture models and best practices
- Presentation 8: Organic product demand from retailers' and consumers' perspectives
- Presentation 9: Government interventions for supporting organic growth

**Wed., 3 June**
- Organic agribusiness company/field visits

**Thurs., 4 June**
- Presentation 10: Advocacy principles and international organic advocacy
- Presentation 11: Organic policy development
- Presentation 12: Organic agriculture research, extension, and knowledge management
- Group breakout session

**Fri., 5 June**
- Presentation of group breakout session output
- Program evaluation by participants, resource persons, and implementing organizations
- Formulation of follow-up action plans by individual participants
- Summing-up session
- Closing session

**Sat., 6 June**
- Departure of participants from Ulaanbaatar

---

### 4. Qualifications of Candidates

The participants are expected to possess the following qualifications:

**Present Position**
- Agribusiness industry leaders; officials of government and NGOs; consultants involved in the organic movement; and representatives of organic certification bodies, farmers’ organizations, and other stakeholders who demonstrate the capacity to play an influential role in promoting organic agroindustry.

**Experience**
- At least two years of experience in the position described above.

**Education**
- University degree or equivalent qualification from a recognized university/institution.

**Language**
- All proceedings of the project are conducted in English, and participants are frequently required to make oral and written presentations. They must therefore be proficient in spoken and written English. Those who are not proficient in English will not be accepted.

**Health**
- Physically and mentally fit to attend an intensive project requiring participants to complete a number of individual and group activities and strenuous fieldwork. It is therefore recommended that member countries do not nominate candidates likely to suffer from physical and mental stress.

**Age**
- Candidates who fit the above profile are typically between 30 and 50 years of age.

**Attendance**
- Participants are required to attend the entire program.
5. Requirements

The participants are required to undertake preparatory work such as writing country papers prior to departure for the project venue.

All participants are required to prepare and submit action plans to the APO and to share them with their NPOs within one month after attending the project. The participants are also required to submit postproject follow-up reports six months after project completion to document the achievement of outcome(s) of the project (see Attachment 1). NPOs will monitor the follow-up actions and report submission by participants.

The “Guidelines for Project Preparatory Work and Postproject Activity” will be provided in the project circular.

5-1. Repeat Participants (who attended previous APO projects and are applying for another)

a. In the Candidate’s Biodata form (application form), candidates are required to provide details of follow-up actions taken after attending a previous APO project(s) and outcomes (benefits) of those activities.

b. Candidates are also required to state in the Candidate’s Biodata form whether they submitted a report on their follow-up actions.

5-2. All Participants

a. In the Candidate’s Biodata form, candidates are required to list their expectations from the project and planned postproject actions/activities. This is a tentative list, which participants are free to revise or replace after attending the project (as in item b below).

b. All participants are required to develop and submit final follow-up action plans within 10 working days of project completion in the format to be provided by the APO Secretariat later.

c. All participants are required to submit reports on the follow-up actions taken within six months (or a period specified for a particular project) of project completion.

d. The reports on follow-up actions are separate from the trip reports participants usually submit to their organizations/NPOs immediately after returning from project venues. The report format will be provided before project completion.

6. Financial Arrangements

6-1. Airfare

The APO will meet the cost of round-trip economy-class international airfare between the international airport nearest to the participants’ place of work and Ulaanbaatar, Mongolia, from organizations in any of these categories:

a. SMEs;

b. Nonprofit organizations; and

c. Any organization from the APO list of LDCs.*

*As of 7 July 2006, the APO list of LDCs comprised Bangladesh, Cambodia, Fiji, Lao PDR, Mongolia, and Nepal.

Participants should note that the arrangements for the purchase of air tickets should follow the “Guide on Purchases of Air Tickets for APO Participants,” which will be sent to the selected participants and is also available on the APO website and from APO Liaison Officers in member countries.

6-2. Participating Country Expenses (PCEs)

PCEs payable to the APO do not apply to organizations in any of these categories:

a. SMEs;

b. Nonprofit organizations; and

c. Any organization from the APO list of LDCs.*

*As of 7 July 2006, the APO list of LDCs comprised Bangladesh, Cambodia, Fiji, Lao PDR, Mongolia, and Nepal.
6-3. Insurance Coverage

Participants' insurance premiums: All participants should be fully insured against accident and illness (including hospitalization and death) for a principal sum equivalent to USD10,000.00 for the entire duration of the project and travel and must submit to the APO Secretariat a copy of the comprehensive travel insurance certificate before participation. Such insurance should be valid in the host country. This insurance requirement is in addition to existing government insurance coverage in some member countries. Neither the APO nor the implementing organization will be responsible for any eventuality arising from accident, illness, acts of war, force majeure, or any unexpected events beyond human control such as those related to natural disasters.

6-4. Cost Sharing

Subject to the conditions stated in the Financial Arrangements section, the following table shows the cost-sharing arrangements between the APO, host country, and participants or participating countries.

7. Actions by Member Countries

a. Each participating country is requested to nominate three or more candidates in the order of preference. Please ensure that candidates nominated meet the qualifications specified under section on Qualifications of Candidates above.
b. No form of self-nomination will be accepted. All nominations must be endorsed and submitted by an APO Director, Alternative Director, Liaison Officer, or their designated officer.

c. Please note that nomination of a candidate does not necessarily guarantee that he/she will be selected. Selection is at the discretion of the selection committee of the APO Secretariat. A basic criterion for selection is the homogeneity of the participants in terms of qualifications and work experience. Nonselection therefore does not mean that the candidates concerned are not competent enough. Sometimes candidates are not selected because they are overqualified for a project.

d. Each nomination should be accompanied by the necessary documents. A nomination lacking any of these documents may not be considered: two copies of the candidate’s biodata on the APO biodata form together with a passport-sized photograph. The biodata form can be downloaded from the APO website (www.apo-tokyo.org). We encourage submitting the biodata form to the APO Secretariat in electronic form as an attachment to a cover e-mail message from the APO Director, Alternate Director, or Liaison Officer. The nomination documents should be sent to the department in charge of this project.

e. The APO Medical and Insurance Declaration/Certification Form. Every candidate must complete and submit a copy of the APO Medical and Insurance Declaration/Certification Form with his/her biodata at the time of nomination. Please note that self-declaration is sufficient for candidates without any of health conditions or illnesses listed on the reverse side of the medical form. However, for all others, medical certification by a licensed physician on the reverse side of the medical form is required.

f. Necessary documents are to be submitted electronically. In that case, there is no need to send a hard copy by postal mail. However, if the documents are submitted by fax, member countries are requested to mail the originals of the documents to the APO Secretariat as well. If a digital photograph of a nominee is not attached to the electronic biodata form, a hard-copy photograph should be sent to the APO Secretariat by postal mail. Please give the candidate’s name and the project code on the reverse side of the photograph.

g. Member countries are requested to adhere to the nomination deadline given on page 1. The APO Secretariat may not consider late nominations as they have in the past resulted in considerable difficulties to the implementing organization in its preparatory work for the project.

h. For member countries where nominations are required to be approved by higher government authorities and require a longer time, APO Liaison Officers/NPOs are urged to send the names of nominees on or before the deadline, indicating that government approval will follow.

i. If a selected participant becomes unable to attend, he/she should inform the APO Liaison Officer/NPO in his/her country immediately and give the reason for withdrawal. The NPO concerned is requested to transmit that information to the APO Secretariat and the host country promptly.

j. NPOs are requested to inform the selected participants that they are not to bring family members or to engage in any private business activities during the entire duration of the project.

k. Each selected participant should be instructed to arrive at the venue one day before the start of the official project. Also, he/she is expected to return home upon completion of the official project because he/she is visiting the host country for the specific purpose of attending this APO project.

l. NPOs should inform participants that they must attend the entire program of the project.

m. NPOs should assist the APO and/or host country in collecting amounts corresponding to cancellation charges arising from withdrawal or no-show of a participant.

8. Actions by the APO Secretariat

a. Under normal circumstances, candidates who are selected will be informed of their acceptance at
least four weeks prior to the start of the project.

b. If some candidates fail to qualify or be unable to participate after selection, or if some member countries fail to nominate any candidate, their slots may be filled by alternates from the same or another member country on a merit basis.

9. Project Preparation

The participants are required to prepare a short paper prior to departure for the project venue. In preparing the paper, they are expected to follow the "Guidelines for the Preparation of Country Papers" to be provided later.

10. Postproject Actions

All participants are required to prepare action plans and share the plans with their NPOs. The APO also requests participants to submit progress reports six months after completion of the project. In addition, participants taking part in training-of-trainers courses must also submit a report summarizing a training project that they conducted following the action plans to the APO and NPOs within six months after project completion.

11. Evaluation of Participants

If the conduct/attendance/performance of a participant is not satisfactory, these will be reported to the APO director concerned.

12. Guide for Participants

Other conditions for participation are given in the APO Guide for Participants, which is available from APO Liaison Officers/NPOs in member countries and on the APO website (www.apo-tokyo.org).

13. Dress Code

Participants are required to wear business attire during the project. Other instructions will be provided in the circular for participants.

Dr. AKP Mochtan
Secretary-General
POSTPROJECT ACTIVITY GUIDELINES

The follow-up actions by participants after project attendance determine the extent of multiplier effects (outcomes) of APO projects in member countries. The APO has therefore established an interdepartmental Participant Selection Committee to ensure selection of the most appropriate candidates. A key consideration is whether individuals are in a position, have the ability, and are willing to undertake follow-up actions after project attendance.

Each participant is required to undertake follow-up actions after attending an APO project based on his/her learning from it and report on those activities to the NPO of his/her country and the APO Secretariat, following the guidelines below:

Examples of Follow-up Activities
The examples below are suggestions and are not meant to limit participants' choices of follow-up actions:

a. An official report on project attendance to participants' organizations, or NPOs, or both;

b. Newspaper/magazine articles based on learning from the project;

c. Application of knowledge, skills, techniques, or technologies for improving job performance and/or organizational capacity;

d. Delivering a presentation or lecture on the project topic;

e. Conducting a workshop/seminar/conference/forum on the project topic;

f. Improving training/teaching/extension materials related to the project topic; and

g. Sharing project findings with colleagues, professional groups, or others.
