NEWS

Eco-products International Fair 2013
Sands Expo & Convention Center
Marina Bay Sands
14 - 16 March 2013

The Eco-products International Fair (EPIF) showcases the most advanced environmentally friendly products, technologies and services that enhance sustainable development and competitiveness.

The 8th EPIF 2013, with the theme "One Environment, One Future: Towards a Sustainable & Greener Asia", serves as a global platform and one-stop centre to showcase Asia's commitments to the environment and highlight the biggest opportunities in eco-business.

Asian governments and the private sector have invested millions in eco-sectors, building entire ecocities and investing in urban solutions, green buildings, green energy, smart grid, waste disposal, pollution control, green finance and water recycling.

The EPIF 2013 is your opportunity to showcase your latest green products and technologies, discover business opportunities and celebrate achievements.

Join us now to take advantage of these multiple business opportunities!
