Eco – Products International Fair 2013

March 14, 2013 - March 16, 2013

Eco – Products International Fair 2013

Marina Bay Sands, Singapore

The Eco-products International Fair (EPIF) is the largest and longest running international environmental exhibition in Asia. It showcases the most advanced environmentally friendly products, technologies, and services that enhance sustainable development and competitiveness.

The 8th EPIF 2013, with the theme "One Environment, One Future: Towards a Sustainable & Greener Asia", EPIF 2013 will serve as a global platform and one-stop centre to showcase Asia's commitments to the environment and highlight the biggest opportunities in eco-business.

Asian governments and the private sector have invested millions in eco-sector building entire eco-cities and investing in urban solutions, green buildings, green energy, smart GRIDS, waste disposal, pollution control, green finance and water recycling. The EPIF 2013 is your opportunity to showcase your latest green products and technologies, discover business opportunities and celebrate achievements.
