

## Online registration for **Eco-products Directory 2010**

Online registration for the upcoming *Eco-products Directory 2010*, the fifth edition, started in November. The *Eco-products Directory* is a groundbreaking APO publication that promotes the

concept and practice of environmentally responsible purchasing among enterprises and consumers in the region. The directory is a business resource and guidebook to cutting-edge eco-technology from Asia and is highly sought after.

All companies, organizations, and associations within APO member economies presently involved in producing and promoting environmentally friendly materials, components, products, or services are invited to list them in the 2010 directory. The URL for registration is [http://w-post.jp/epd2010/index\\_en.html](http://w-post.jp/epd2010/index_en.html), and full instructions for registration are available. The deadline for applications is the end of December 2009. The 2010 edition will be released at the EPIF 2010 to be held in Jakarta, Indonesia, 4–7 March 2010.
